TENTATIVE PROGRAM

for the Workshop

"Building a Sustainable Future: Integrating Consumption, Finance, and Education"

Monday, June 10, 2024

at DIJ, Jochi Kioizaka Bldg. 2F
7-1 Kioicho, Chiyoda-ku, Tokyo 102-0094

Language: English

This workshop delves into the interconnected issues of sustainability, sustainable consumption, sustainable finance and education which collectively form a holistic approach to creating a more balanced and resilient world. Sustainable consumption encourages mindful choices to minimize waste and environmental impact, while sustainable finance directs capital toward environmentally friendly and socially responsible investments. Together, they create a powerful framework that fosters innovation, promotes responsible resource management, and drives positive social and environmental outcomes, paving the way for a sustainable and prosperous future.
